SQL invalid or execution failed -> ABSTAIN
Plan ambiguous, item unavailable or plan-SQL fidelity failed -> CLARIFY
Score >= 0.70 -> ANSWER; 0.40-0.70 -> WARN; < 0.40 -> ABSTAIN
Any veto (coverage, audit, verifier, semantic) -> CLARIFY, score capped at 0.30
Standing caveat (inferred FK, related-table grain, stated assumption) -> WARN
The score is a weighted validity score, not a calibrated probability
